EXTRA SCHOLASTIC DUTIES.

PRESIDENT McAFEE,

DR. T. G. BURT,

PROF. R. V. MAGERS.

FACULTY.

LOWELL MASON MCAFEE, A. M., LL. D.,
President.

ARTHUR LESTER WOLFE, A. M., Ph. D.,
Latin Language and Literature.

REV. SAMUEL LANTY MCAFEE, A. M., D. D.,
Emeritus, George S. Park Department of Biblical History.

MERLIN CHAMBERLIN FINDLAY, A. M.,
George S. Park Department of Biology.

ARTHUR MARTYN MATTOON, A. M.,
Mathematics and Astronomy.

THOMAS GREGORY BURT, A. M., Ph. D.,
George S. Park Department of Biblical History, Chaplain.

*HOWARD ANDREW DEAN, A. M.,
Chemistry and Physics.

JOHN HAMILTON LAWRENCE, A. M.,
Literature and Public Speaking.

ROY VERNON MAGERS, A. M.,
Greek Language and Literature.

REV. AUSTIN DICKINSON WOLFE, A. B.,
Librarian.

REV. SILAS EVANS, A. M., B. D.,
Benjamin S. Brown Department of Mental and Moral Philosophy.

JAMES MCCLURE MATTHEWS, A. B.,
History and Economics.

JAMES WITTENMEYER CHAPMAN, A. B.,
Instructor in Chemistry and Physics.

JAMES LUCIEN MORRIS, B. S.,
Instructor in Biology.

MARK FRANCIS WILCOX, A. B.,
Instructor in Rhetoric and Public Speaking.

LIDA IDYL WHITE, A. M.,
English.

JOHN W. STEPHENS, A. M.,
Greek.

THERESA MARGUERITE KALB, A. B.,
Latin.

JOHN WESLEY HORNBEAK, B. S.,
Geometry and Algebra.

EDWIN OSWALD KOCH, A. B.,
Latin.

DUDLEY DAVID GRIFFITH, A. B.,
Greek.

BLANCHE HOWARD, L. B.,
History and German.

MANIE ESTHER MCAFEE, A. M.,
Instrumental Music.

IDA EMMA STEM, A. B.,
Vocal Music.

EMILIE HANSEN, B. M.,
Piano, Harmony and Musical History.

ORWELL CLAUDE RADER,
Violin.

Director of the Band and of the Orchestra.

*Absent on leave for study and travel.

REQUIREMENTS FOR ADMISSION TO COLLEGE.

No certificate from a preparatory school will be received for any part of the work of the College Course. Examination will be given in any college subject for which credit is sought. Laboratory work will be required if the subject be a science.

All candidates for admission to College must furnish satisfactory evidence of good moral character, and if they have been enrolled in another college, must present a certificate of honorable dismissal, with a statement of the grades they desire credit.

The regular times for entrance examinations are the Monday before Commencement and the last day of the summer vacation.

Sixteen Units or their equivalent are required for admission to the Freshman Class.

The term Unit, as defined by the North Central Association of College and Secondary School (p. 36, Proceedings Tenth Annual Meeting), has been adopted—a study prescribed for one school year of at least 35 weeks, for four or five periods per week of prepared work.

Requirements of the "Grammar Grades" are not accepted in satisfaction of these Units.

Fifteen Required Units are as follows:

Latin	4	Mathematics	3
Greek	2	English	3½
History	1	Bible	½
Science	1		

The one optional Unit may be offered in any one of the above departments or their equivalent.

Students may be granted three Units of conditions, two of which may be Greek. When this is done, two Units additional to those accepted must be offered.

Greek conditions must be removed by class room work for which College credits will be given.

Graduates of Park College Academy are admitted to the Freshman Class without examination or condition.

Graduates of approved Preparatory or High Schools will be given admission to the Freshman Class by satisfying, study for study, the requirements for entrance as presented in the following statements.

All enrollment is tentative. Full standing will not be given until the student has shown, by doing satisfactory work, that he is able to pursue College subjects with success.

REQUIREMENTS FOR ADMISSION BY DEPARTMENTS.

LATIN:

Four Units are Required.

1. Grammar: Inflection, Rules of Syntax and Prosody.
2. Texts: Five Books Caesar's Gallic Wars, for one of which Viri Romae may be substituted. Sallust's Conspiracy of Catiline or its equivalent. Six of Cicero's Orations, including four against Catiline. Four to six books of Vergil.

Prose Composition: Translation into Latin Prose of English sentences as outlined in D'Ooge's Prose Composition or its equivalent.

GREEK:

Two Units are Required.

1. Grammar: Goodwin's Greek Grammar and White's Greek Lessons or their equivalent.

2. Texts: Four books Xenophon's Anabasis, with special reference to forms and syntax. Three books Homer's Iliad, with special reference to Homeric forms and Greek mythology.
3. Prose Composition. Translation into Greek of easy Attic prose based on the Anabasis.

HISTORY:

One Unit is Required.

1. Myers' Ancient History or its equivalent. Courses in General History, English History or advanced American History may be substituted.

SCIENCE:

One Unit is Required.

1. Biology: A year's work in biological study, preferably laboratory work. An equivalent in Chemistry or Physics will be accepted.

MATHEMATICS:

Three Units are Required.

1. Algebra, including Quadratic Equations, problems depending upon Quadratic Equations and arithmetical and geometrical progression.
2. Geometry: Wentworth's Revised Book, including both plane and solid Geometry, with the solution of numerous original exercises.

ENGLISH:

Three and One-half Units are Required.

1. Composition: At least one year's work is required in the study of some text of Composition and Rhetoric. Applicants will be required to write a short essay on some familiar theme. Punctuation, paragraphing and spelling will be critically examined.
2. Literature: The College entrance requirements in English furnish the basis of requirements for reading and for critical study.

BIBLE:

One-half Unit is Required.

1. The Bible is used as a text, special reference being given to Biblical geography, customs, antiquities and history.

REQUIREMENTS FOR GRADUATION.

But one course of study is offered, for the completion of which the degree of Bachelor of Arts is given. The College work covers a period of four academic years, which are divided into three terms of fourteen weeks each. Seventeen recitation periods per week are required, making a total for each year of 51 term hours, and a total for the course of four years of 204 hours. One hundred and fifty-two hours' work are prescribed, and 52 are elective.

The several departments, and the number of hours required in each, are given below, also the number of hours of elective work in the several departments.

SUBJECTS.	REQUIRED.	ELECTIVE.
Foreign Languages	39	82
English	30	17
Mathematics	11	16
Science	21	34
Bible	17	10
History	9	28
Astronomy	5	7
Philosophy	15	8
Economics	5	
Sociology		3
International Law		5

DEPARTMENTS OF INSTRUCTION.

LATIN.

DR. ARTHUR L. WOLFE.

Throughout the entire Latin course much use is made of the reference library, rich in works on philosophy, archæology and history. Grammar is not discarded, but is relegated to a secondary place by the end of the Freshman year. Stress is laid upon intelligent reading of the text in the original, and upon advance sight reading. The constant aim is to secure not only an exact and sympathetic understanding of the text, but such a correlation of each subject with general history, literature and the concerns of modern life as to give it a vital interest and broad cultural value.

1. Livy. I. 1. 4 Hours.

Book XXI or XXII, with thorough grammatical reviews and resume of Roman political history.

2. Cicero's *De Senectute*. I. 2. 5 Hours.

Biographical studies of representative Romans. Comparison of English literary parallels.

3. Odes of Horace. I. 3. 4 Hours.

Historical and literary allusions, poetic imagery and phraseology, comparison of English lyrics, and translations into English verse. Latin prosody.

Latin prose based upon idioms encountered in the reading is maintained throughout the year.

†Roman numerals indicate the years; i. e., 1 Freshman year. Arabic numerals indicate the terms; i. e., I First term.

4. Satires and Epistles of Horace. II. 1. 4 Hours.
With investigations into Roman private life and philosophy.
5. Letters of Cicero. II. 2. 4 Hours.
Roman politics in last age of Republic, special usages of epistolary Latin.
6. Plautus: Captivi and Trinummus. II. 3. 4 Hours.
The Roman theater and drama, prosody, syntactic and phonetic development of Latin.
Throughout this year studies in Roman archæology and in advanced prose composition are carried on, and two prizes of \$10 and \$5, respectively, are offered to those who stand highest in these subjects, having taken the full three terms work.
7. Epicurean Philosophy. III. IV. 1. 4 Hours, 1908-1909.
Lucretius, Book V; Cicero's *De Natura Deorum*; lectures and research.
8. Roman Law. III and IV. 2. 5 Hours, 1908-1909.
Selections from the Digest and Institutes of Gaius and Justinian, influence of civil law on common law, comparison of legal principles and usages in Rome, England and this state.
9. Teachers' Course. III and IV. 3. 5 Hours, 1908-1909.
Review of elements of grammar in the light of comparative phonology and syntax, comparison of texts and editions, study of methods of teaching Academic Latin.
10. Tacitus. III and IV. 1. 4 Hours, 1907-1908.
Germania and Agricola; the Romans in Britain and on the Rhine, Roman provincial administration, the Germanic irruptions and kingdoms established on the ruins of the Western Empire.
11. Latin Literature. III and IV. 2. 5 Hours. 1907-1908.
General survey illustrated by comparison with English men of letters.

12. Augustine's *De Civitate Dei*. III and IV. 3. 5 Hours, 1907-1908.

Selections: The movement of Christian thought and effect of Roman politics and jurisprudence upon theology, illustrated by the greatest of the church fathers.

ART.

DR. ARTHUR L. WOLFE.

Vasari's *Lives*, biographical monographs and bound volumes of magazines afford valuable and abundant reference matter, supplemental to the histories of art. The courses are illustrated throughout with photographs and prints.

1. History of Art. III. 3. 4 Hours.

Cursory survey of Egyptian, Greek and Roman painting, and biographical study of Italian art from Cimabue to Salvator Rosa three periods weekly. Lectures on Architecture one period weekly.

2. History of Art. IV. 1. 4 Hours.

General history of painting in Europe, outside of Italy, from the 16th to the 19th Centuries, with an introduction to the leading American artists.

PHYSICS.

PROF. HOWARD A. DEAN; INSTRUCTOR, JAMES W. CHAPMAN.

Throughout the year Gage's "Principles of Physics" is used as a text, supplemented by lectures and references with laboratory work 4 hours per week. Special emphasis is put on practical application by demonstrations and problems.

1. Physics. II. 1. 4 Hours.

A course in Mechanics.

2. Physics. II. 2. 4 Hours.

A Course in Sound and Heat.

3. Physics. II. 3. 4 Hours.

A course in Light and Electricity.

CHEMISTRY.

PROF. HOWARD A. DEAN.

1. Chemistry. II. 2. 4 Hours.

A Course in General Chemistry. Six hours of laboratory work are required. Newell's "Descriptive Chemistry" is used as a text, supplemented by lectures and special experiments.

2. Chemistry. II. 3. 4 Hours.

A course in Qualitative Analysis, outlined from "Fresenius." Eight hours' laboratory work are required.

HISTORY.

PROF. JAMES M. MATTHEWS.

1. History. II. 1. 5 Hours.

History of Mediaeval and Modern Institutions. Myers' revised text is used for general outline of the great historical movements since the fall of Rome. Lectures and special analysis of important events are given. Extensive side reading and term theses also constitute part of the regular work.

2. History. II. 3. 4 Hours.

Cheyney's English History is studied, together with lectures, outline work, collateral reading and essays.

3. History. III. 2. 5 Hours.

American History. The two history courses in II. 1 and 3 are designed to lead by a natural, logical development to the philosophical study of our own institutions. The power of memory is not emphasized in this work so much as the student's ability to analyze peculiar conditions and events. Note book work is required, also special quizzes and written reviews, and an extensive use of a well equipped library. The text followed in this study is Channing's Student History of the United States.

4. History. IV. 1. 3 Hours.

History of Revolutionary Europe, 1789-1815. This course is intended as a somewhat technical analysis of European conditions as indicated and influenced by the great upheaval in France in this period. Revolutionary Europe by Morse Stephens is used as a general text, together with lectures and outline work, written reviews and special productions.

5. History. IV. 2. 4 Hours.

History of the 19th Century, 1815-1899. This course is a companion study of the History of Revolutionary Europe, 1789-1815, IV. 1. 3. Modern Europe by Allison Phillips is followed as a general text. Also special topics are assigned in Seignobos' Political History of Europe as translated by MacVane. Independent reading is further emphasized as far as may be possible with carefully compiled notes.

6. History. IV. 2. 3 Hours.

History of Education. Great educators and the great educational systems are studied. Seeley's History of Education is used by the class with Compayre, Painter and other works of reference.

7. History. IV. 3. 5 Hours.

History of Civilization. Guizot's Lectures on the History of the Civilization of Modern Europe are studied. This work may be supplemented by lectures, parallel readings and theses. This course is intended to be a philosophical analysis of the various elements of civilization.

POLITICAL ECONOMY.

PROF. JAMES M. MATTHEWS.

1. Economics. III. 2. 3 Hours.

An advanced text in Political Economy by Walker is

used for the regular recitations. Lectures are given at the discretion of the teacher. Popular discussions, general analysis of economic questions, occasional debates between picked members of the class, and written reviews also constitute a part of the course.

2. International Law. III. 3. 5 Hours.

The history and character of International law are considered, followed by an exposition of the rules which generally govern the modern states in their intercourse. Quizzes and written reviews, lectures and reference work. The text in this subject is International Law by Davis.

SOCIOLOGY.

PROF. JAMES M. MATTHEWS.

1. Sociology. IV. 1. 3 Hours.

Blackmar's Sociology is used for regular class work. The study of modern sociological problems is attempted, with extensive side readings from other texts and from the current writings of reputable men.

MATHEMATICS.

PROF. A. M. MATTOON.

1. Trigonometry. I. 1. 5 Hours.

The text used is Mattoon's Essentials of Plane and Spherical Trigonometry; and the aim is to give the student the ability to solve any sort of triangle and to apply the principles of triangulation to any of the practical problems.

2. Theory of Equations. I. 2. 2 Hours.

This study embraces a review of some of the more important cases in the solution of Quadratic Equations and

such drill as shall lead the student to comprehend the province of the Equation as the representative of the Geometrical Concepts. The text used is Mattoon's Introduction to the Theory of Equations.

3. Analytic Geometry. I. 3. 4 Hours.

Such portions of Nichol's Analytic Geometry as treat of rectilinear figures, the Conic Sections and some of the Higher Plane Curves, are studied.

4. Calculus. II. 2 and 3. 4 Hours.

Snyder & Hutchinson's Differential and Integral Calculus has been the text book in use; and those portions have been covered that demonstrate the rules for differentiation and integration, Leibnitz's, McLaurin's and Taylor's Theorems, and a wide range of practical examples, both in Differential and Integral Calculus. During the last term of the work, two days each month are taken for the study of the instruments in the Observatory, with special reference to the mathematical principles involved in their use.

5. Surveying and Civil Engineering. III. 1. 4 Hours.

No formal text book is used in this term's work, but the students are first taught how to adjust the instruments; and then go afield and run surveys of farm lands, make practice surveys of railroads and railroad curves, do leveling for section, for street grades and for drainage or irrigation. After the surveys are made, the field notes are computed and reduced to plots, drawn to scale.

6. Senior Mathematics. IV. 2. 3 Hours.

A choice is offered the class between:

(1) Advanced work in Analytic Geometry and Calculus; or

(2) A term in the study of Navigation, the latter taught by lectures and solution of the principal problems of practical Navigation.

ASTRONOMY.

PROF. A. M. MATTOON.

1. Manual of Astronomy. III. 1. 3 Hours, and 3. 2 Hours.

The work will follow mainly Young's Manual of Astronomy, and the text book will be supplemented by observations, taken with the equatorial telescope and transit instruments in the Observatory.

2. Practical Astronomy. IV. 1. 4 Hours.

Standard text books by several authors are in the hands of the class, to guide in taking observations; and the students determine time, latitude and longitude and compute current eclipses. Under the head of "Buildings" will be found a description of the excellent equipment of our Charles Smith Scott Observatory, the apparatus of which is specially for use in instructing classes in Astronomy, both General and Practical.

3. Spherical Astronomy. IV. 2. 3 Hours.

The work of this term consists mainly in the applications of Spherical Trigonometry to the problems involved upon the celestial sphere.

SACRED HISTORY.

DR. THOMAS G. BURT.

The aim is practical and cultural. There is sought a working knowledge of the inspired Word—the Book of the world; also there is held as essential a brief study of the important facts in the history of the Jewish people as necessary to the study of Christianity—the religion *for* the world. This much is fundamental as well as essential. Then follows a philosophical study of Christianity and the history of the Christian church, with constant emphasis upon the efficacy and adapta-

bility of the Christian religion and of its cultural value as the prime factor in the social evolution. The study of the Biblical text and constant reference thereto is essential and constant throughout the course as are the principles of Algebra to Higher Mathematics.

1. New Testament History. I. 1. 1 Hour.

The History of the Jews from the Restoration to the birth of Jesus. The connection between the Old and the New Testaments.

2. New Testament History. I. 2. 1 Hour.

A study of the life of Jesus as contained in the Bible. A comparative study of the four Gospels in their presentation of that life.

3. New Testament History. I. 3. 1 Hour.

A study of the Acts of the Apostles. The history of the organization and development of the early Christian church.

4. New Testament History. II. 1. 1 Hour.

The life of Paul and the early missionary activity of the Christian church.

5. New Testament History. II. 2. 1 Hour.

A study of the Pauline Epistles and the character of the people to whom they were written, showing the versatility and adaptability of Paul.

6. New Testament History. II. 3. 1 Hour.

The General Epistles. A brief resume of the church up to 325.

7. Sacred History. III. 1. 4 Hours.

The history of religion—a philosophic study of the great religions of the world, emphasizing always the divine origin and transcendent value of Christianity. A text is used. Lectures, notes, a thesis and extra reading supplement the work of the text.

8. Sacred History. III. 2. 3 Hours.
History of religion is continued.
9. Sacred History. III. 3. 2 Hours.
Evidences of Christianity. A text book with lectures and constant reference to accessible works, together with a thesis on some assigned subject, make up the work of the term.
10. Sacred History. IV. 1. 4 Hours, Elective.
The History of Christianity from 325 up to the Reformation. Emphasis is placed on the ability of Christianity to meet and to satisfy the fixed as well as the changing needs of the human race—a fact that leads to the philosophic consideration of the development of the church and its many activities.
11. Sacred History. IV. 2. 3 Hours, Elective.
A brief history of the Reformation and of the formation of the reformed church up to 1648.
12. Sacred History. IV. 3. 5 Hours, Elective.
History of Christianity from 1648 up to 1800, especially noting the formation, government and influence of the branches of the Protestant Church.
13. Sacred History. IV. 3. 3 Hours.
A brief study of the Christian Church during the 19th century, with especial emphasis on the great missionary movement of the century—the promise of God being fulfilled.

ENGLISH.

PROF. J. H. LAWRENCE AND INSTRUCTOR MARK F. WILCOX.

The work of this department is devoted to the study of Public Speaking, Rhetoric and Composition, and English Literature. The purpose is to prepare students to express their thought with directness and force in written and spoken discourse, and to give them a familiar acquaintance with the great authors and the more important movements of English literature and a thorough knowledge of one or more special periods. Composition and the study of Literature are carried along side by side through the entire course.

1. Public Speaking. I. 1. 3 Hours.

A study in correct breathing, inflection, emphasis and action. Text: Shurter's Public Speaking.

2. Rhetoric and Composition. I. 1. 2. 3 Hours.

A study of the several forms of discourse, with reference to their structure and style. Weekly themes. Text: Genung's Practical Rhetoric.

3. History and Development of English Literature. II. 1. 2. 3 Hours.

During these two terms the general movements of English Literature, with their causes, influences, great writers and masterpieces, are carefully traced. Supplementary reading in connection with the periods studied and bi-weekly reports of that reading are required. Simond's History of English Literature is used as the basis of study.

4. Argumentation. II. 3. 3. 3 Hours.

A study of the principles and methods of effective debating. Frequent exercises in brief-making and in debating. Text: Baker's Principles of Argumentation.

5. English Literature of the Nineteenth Century. III. 1. 2. 3 Hours.

During the first term the writers of the Romantic period and during the second term the writers of the Victorian period are studied, with special attention to detail. Herford's Age of Wordsworth and Walker's Age of Tennyson are used as the bases of study. Considerable reading in the authors of these periods, reports and theses are required.

6. Advanced Composition. III. 3. 5 Hours.

During this term English Classics are read with reference to the finer qualities of style. Frequent short themes and occasional long ones are required, criticised and discussed in the class.

7. Shakespeare. IV. 1. 2. 3 and 4 Hours.

This is a course in intensive reading, with special reference to the language and poetry of Shakespeare. Macbeth, I Henry IV, King Lear, and As You Like It were read during the year 1907-08. Much outside reading is required.

8. Tennyson. IV. 3. 5 Hours.

The purpose of this course is to study, as far as possible, all of Tennyson's more important poems, both short and long, in order to gain a clear and just estimate of Tennyson as an artist and as an interpreter of his age. Lectures are given and theses required.

9. Public Rhetoricals.

In addition to the study of the theory of public speaking, each student is required to put this knowledge into practice by appearing, at stated periods, in the College Rhetoricals. Freshmen and Sophomores give declamations, Juniors discussions and Seniors orations. Each student is given individual instruction and drill before he appears in public.

PHILOSOPHY.

PROF. SILAS EVANS.

The course in Philosophy differs somewhat in method and content from year to year as the interests may determine. The general aim throughout is to develop in the student mind the philosophic spirit, to think with breadth and consistency, and to appreciate the great movements of human thought.

1. Psychology. IV. 1. 4 Hours.

This is a central discipline. It presupposes an elementary knowledge of the structure and function of the nervous system. Some attention is given to the empirical methods, but the main emphasis is laid upon the rational aspect of Psychology. The course aims to introduce the student to the whole field of mental science. Dewey's text is used, and also assigned reading and lectures.

2. Logic. IV. 1. 2 Hours.

This course presents the vital processes of thought as well as the more formal processes; Application of correct thinking to concrete problems; Detection of fallacies and analysis of arguments, both Inductive and Deductive, and their correlation in modern theory. The work consists of assigned exercises and Creighton's text is used.

3. History of Philosophy. IV. 2. 5 Hours.

This course aims to acquaint the student with philosophical problems as unfolded in the history of speculation. The great cardinal systems are presented in their relation to the science and culture of the different periods of world history, and studied in outline from early Greek to modern times. A series of lectures on Philosophy will occupy one period per week throughout the term. A thesis on Kant is required. The text is Weber's History of Philosophy.

4. Ethics. IV. 3. 3 Hours.

The history of ethical theory is briefly reviewed. A discussion of the grounds of Ethics and its relation to Metaphysics, Psychology and practical life. No theory of ethics is dogmatically accepted. Lectures and recitations on Muirhead's Elements and Palmer's Field of Ethics constitute the work.

5. Theism. IV. 2. 3 Hours.

Elective. A course of Lectures. Assigned reading in the literature of the subject with reports.

6. Metaphysics. IV. 3. 5 Hours.

Elective. A course of lectures. Class investigations and class discussions.

GERMAN.

MISS BLANCHE HOWARD.

A thorough grammatical and reading knowledge is aimed at, and with this is combined work in prose composition. The work varies from year to year, but a general outline would be as follows:

1. Grammar. II. 1. 4 Hours.

Joynes-Meissner's Grammar, Part I; Brandt's Reader.

2. Grammar and Reading. II. 2. 4 Hours.

Grammar, Part I reviewed and Part II; Brandt's Reader continued; Schiller's Wilhelm Tell. Sight reading; Höher als die Kirche, Onkel und Nichte, Das Kalte Herz or some such work as taken from Heath's Modern Language Series.

3. Reading. II. 1. 5 Hours.

Grammar, reviewed and Part III; Schiller's Jungfrau. Lessing's Minna von Barnhelm; Heine's Prosa. Sight

reading, Bibliothekar, Köpnickersstrasse or Geschichten vom Rhein. Grammar (Whitney's) with prose composition. Goethe's Faust, Part I; Klenze's Deutsche Gedichte; German Literature.

BIOLOGY.

PROF. MERLIN C. FINDLAY.

The work as outlined here presupposes a knowledge of elementary Physiology, and one term's work on the Crayfish or Frog, or their equivalent. The purpose of this department is to familiarize the student with the structure, function and development of animals and plants, both living and fossil. The method of study is four-fold: First, careful observation of the specimen in hand, including dissections and the use of the microscope; second, pen-sketching of important organs; third, reference reading and discussion of obscure points; fourth, lectures and quizzes. The subjects of the Senior year are elective, and those of the Junior year are required. Laboratory work is required in all subjects except Geology, and two hours of such work is reckoned as one in the outline below. A small fee is required of each student as rental for the use of the microscope and dissecting instruments.

1. General Biology. III. 1. 3 Hours.

This includes a study of the structure and uses of the compound microscope, the elements of pen-sketching as applied to Biology, and the form and functions of unicellular plants and animals. A few slime-molds and fungi are included. Stress is laid on the first principles, those which govern the simplest lives. Sedgwick and Wilson's General Biology and Parker and Haswell's Text-book, Vol. 1, are the texts used.

2. Invertebrate Anatomy. III. 2. 3 Hours.

This is a comparative study of the structure and functions of Sponges, Polyps and Medusae, Corals and Worms. Special attention is paid to the study of animal tissues, to the life histories and to the economic importance of animals in general. The texts are the same as for the preceding term.

3. Phenogamic Botany. III. 3. 5 Hours.

The Morphology, Physiology and Histology of Flowering Plants are carefully studied from selected types found abundantly in this locality. Bergen's Foundations of Botany, with Key and Flora, is in the hands of each student. Reference readings form an important feature of this subject.

4. Cryptogamic Botany. IV. 1. 4 Hours.

Algae, Fungi and Bacteria are studied, with especial reference to plant physiology. Emphasis is laid on the culture of micro-organisms, and the relation of Botany to Horticulture, Agriculture and Medicine.

5. Entomology. IV. 1. 3 Hours.

The Metamorphosis of Insects and their adaption to environment receives most emphasis in this term's work. Each student collects and classifies a selected list of insects from this vicinity in order to learn the principles of Taxonomy. Attention is directed to the injurious and beneficial species of insects, and to spiders, scorpions and other animals closely related. Needham's Lessons in Zoology, Comstock's Manual and Howard's Insects are in the hands of the students for daily use. The reference library is well equipped in this line.

6. Vertebrate Anatomy. IV. 2. 4 Hours.

This term is devoted to the comparative study of Vertebrates. The types usually selected are such as Amphioxus, the Dogfish, the Frog and the Cat. Marshall & Hurst's Practical Zoology and Marshall's Frog furnish most of the laboratory outlines. Parker and Haswell's Zoology, Vol. II, is the text. Constant use is made of the human skeleton and models for comparisons.

7. Embryology. IV. 3. 5 Hours.

Fish, Frog, Snail and Hen's Eggs form the basis of study. Microtome sections of eggs and embryos are made and sketched. The technique of sectioning and mounting is practiced. Near the end of this term a few recitations are given to a rapid review of the Animal Kingdom. Hertwig's Zoology is used for this purpose.

8. Structural Geology. IV. 2. 4 Hours.

LeConte's Text-Book, Scott's Introduction and Norton's Elements are in the hands of the students. Daily recitations are interspersed with informal talks on the geology of this section. A well selected and classified collection of rocks and minerals affords ample means for illustration of the text.

9. Historical Geology. IV. 3. 5 Hours.

The texts are the same as for the previous term, but this term may be elected without the previous work. Lectures are more frequent. The entire range of plant and animal classification is reviewed, and the development and relationships of past and present forms are traced. Wherever possible, excursions are made to quarries and neighboring places of geological interest.

Subjects numbered 5, 8 and 9 are intended to be cultural. Numbers 4, 6 and 7 are more technical.

GREEK.

PROF. ROY V. MAGERS.

1. Homer. I. 1. 4 Hours.

A term's work in the Iliad is presupposed as a basis for this course. All of Book III and extended selections from the later books of the Iliad are read. The class is required also to read and report upon Chapters I-III of Jebb's "Homer."

2. Lysias. I. 2. 5 Hours.

Five or six of the orations of Lysias are read, and a study is made of Greek legal, political and social institutions.

3. "Timon the Misanthrope" and "Hunters of Euboea." I. 3. 4 Hours.

The term is equally divided between these two works of Lucian and Dio Chrysostom.

4. Plato. II. 1. 4 Hours.

The "Apology" and "Crito" are used as texts. Special attention is given to the life, personality and influence of Socrates.

5. Greek Drama. II. 2. 4 Hours.

Sophocles' "Antigone" is read in the original and analyzed. Numerous lectures on the history and characteristics of Greek Drama. All the plays of Sophocles are read in Plumptre's translation, with a view to literary interpretation. Theses are required on assigned subjects.

6. Greek Drama. II. 3. 4 Hours.

Euripides' "Iphigenia in Tauris" is read, and further study is made of Greek Drama in general. Though this course naturally follows course No. 5, it may be taken independently, without previous study of Greek Drama.

7. Greek History. (Not offered in 1907-08.) III and IV. 1 and 2. 4 Hours.

This course extends through two terms, and is designed to give the student a complete view of Greek History, from the period of the Persian invasions through the close of the Peloponnesian War. Lectures are given on the three great historians and other topics, and students are required to do much outside reading on assigned subjects. The lives and achievements of the great characters in Greek History are specially investigated. The Greek reading consists of selections from Herodotus, Thucydides (Book VII) and Xenophon's "Hellenica."

8. Greek Oratory. (Not offered in 1907-08.) III and IV. 3. 5 Hours.

To follow course 7 in History. Reading Demosthenes' "Philippics," lectures and investigation.

9. Lyric Poetry. (Not offered in 1908-09.) III and IV. 1. 4 Hours.

Selections from various Greek poets; lectures, and a comparative study of Greek and English lyrics.

10. Greek Philosophy. (Not offered in 1908-09.) III and IV. 2. 4 Hours.

Lectures and assigned reading on Greek Philosophy in general, but particularly the Pre-Socratic thinkers, the Sophists and Socrates. Selections are read at sight from Xenophon's "Memorabilia" and Cebes' "Tablet" in connection with the study of Socrates.

- 10a. Greek Art. (Not offered in 1908-09.) III. 2. 1 Hour.

This course is required of Juniors who elect course 10, and consists of lectures upon Greek Architecture, Sculpture and Painting, with investigation of special topics by members of the class.

11. Greek Literature. III and IV. 5 Hours.

This course is given entirely in English, and no ability to read Greek is required. It comprises a review of the whole history of Greek Literature, from the earliest times down to Aristotle, and consists of lectures by the instructor and assigned readings by the class. Jebb's "Primer of Greek Literature" is also used to furnish the historical basis of the course.

TEXT-BOOKS.

BIBLICAL—Robinson: Harmony of the Gospels; Stalker: Life of Christ; Stalker: Life of St. Paul; Sell: Study of the Bible by Books; Minton: Christianity Supernatural; Kellogg: Handbook of Comparative Religions; Burrell: Great Religions of the World; The Bible; Purves: Apostolic Age.

ENGLISH—Shurter: Public Speaking; Genung: Elements of Rhetoric; Baker: Principles of Argumentation; Simond: History of English Literature; Classics. Woodbridge: The Drama.

HISTORY—Myers: Mediaeval and Modern History; Cheyney: History of England; Channing: Students' History of the United States; Seeley: History of Education; Macy: The English Constitution; Guizot: History of Civilization; Stephens: Revolutionary Europe; Philips: Modern Europe.

LATIN—Lord: Livy; Smith: Horace, Complete; Rockwood: Cicero de Senectute et de Amicitia; Abbott: Letters of Cicero; Morris: Plautus; Gudeman: Tacitus' Germania and Agricola; Duff: Lucretius; Knapp and Arrowsmith: Roman Life in Prose and Verse; Wright: Juvenal; Harkness: Complete Latin Grammar; Lewis: Elementary Latin Lexicon; Robinson: Selections from Roman Law.

GREEK—Seymour: Homer's Iliad; Sewall: Timon; Prentice: Hunters of Eubœa; Westcott and Hort: New Testa-

ment; Morgan: Eight Orations of Lysias; D'Ooge: Antigone; Baird: Word List; Dyer: Apology and Crito; Tarbell: Philip-pics; Tyler: Greek Lyric Poets; Winans: Memorabilia; Allen: Medea; Manatt: Hellenica; Cook: Cyropedia; Smith: Thucy-dides; Burgess & Bonner: Elementary Greek.

MATHEMATICS—Mattoon: Trigonometry; Mattoon: Sur-veying; Loomis: Logarithmic Tables; Nichols: Analytic Ge-ometry; Young: Manual of Astronomy; Loomis: Practical Astronomy; Greene: Spherical and Practical Astronomy; Mat-toon: Theory of Equations; Snyder & Hutchinson: Differ-ential and Integral Calculus.

GERMAN—Joynes-Meissner: German Grammar; Brandt: German Reader; Storm: Immensee; Stern: Geschichten vom Rhein; Wells: Der Bibliothekar; Deering: Wilhelm Tell; Wells: Jungfrau vom Orleans; Thomas: Faust; Bronson's Colloquial German.

SCIENCE—Bergen: Manual of Botany; Barnes and Coul-ter: Manual of Botany; Campbell: Structural and Systematic Botany; Parker and Haswell: Zoology; Needham's Elemen-tary Lessons in Zoology; Hertwig: General Principles of Zo-ology; Marshall: The Frog; Sedgwick and Wilson: Biology; Gage: Elements of Physics; Newell: Descriptive Chemistry, Parts I and II; Huxley: Crayfish; Armstrong and Norton: Manual of Chemistry.

PHILOSOPHY—Creighton: Introduction to Logic; Weber: History of Philosophy; Dewey: Psychology; Fisher: Grounds of Theistic and Christian Belief; Palmer: The Field of Ethics; Muirhead: Principles of Ethics.

HISTORY OF ART—Poynter and Head: Classic and Italian Painting; Van Dyke: How to Judge a Picture.

ECONOMIES AND SOCIOLOGY—Walker: Political Economy; Blackmar: Elements of Sociology; Henderson: Social Ele-ments; Wilson: The State; Davis: International Law.

GENERAL STATEMENTS.

BUILDINGS.

Woodward Hall—The historic stone building, which for many years was the center of college life, is located but a few feet from the railroad station of the Burlington and Rock Island Railways. It has recently been used for men's dormitories, and bears the name of Woodward Hall, in memory of the late Rev. George S. Woodward. January, 1908, it was disposed of to the railroad company. The erection of a new Woodward was at once begun.

McCormick Chapel—McCormick was erected in 1887. The auditorium of 900 sittings is the largest on the campus, and serves for the general gatherings and the Chapel exercises of the institution.

Mackay Building—Mackay was begun in 1887, and was occupied March 13th, 1893. It is a stone building, four stories, including the basement. The lecture halls are large, light and well ventilated. The laboratories are conveniently located.

The Charles Smith Scott Astronomical Observatory—The Observatory was erected and equipped in 1898 by Mr. Anthony Dey of New York City. The material is white limestone. From the crown of the hill it overlooks the entire campus, and is within easy access from all parts of it.

Labor Hall—This building was erected in 1906, and, as its name suggests, is the headquarters of the student self-help department. It contains a swimming pool 30'x60', shower baths, an ample supply of lockers, tool rooms, and a modest gymnasium.

Library—A gift has been received from Mr. Andrew Carnegie for the erection of a Library Building. Work was be-

gun upon it in the summer of 1906. The material is white limestone, with red tile roof. The floors and ceiling are reinforced concrete. The stocks are steel. The building is 32x54 feet. The second floor is used for stacks and filing cases; the first for stacks and reading room.

Alumni Building—A generous gift from the Alumni Association made possible the erection, in 1904, of the Alumni Building. The building is of stone, and is an ornament to the campus. The auditorium of 300 sittings is used for student gatherings of that number and smaller, and for the weekly rhetorical exercises of both college and academy. The officers of the Alumni Association have an office in it, and several guest rooms are provided for the comfort of the alumni when on the campus. A banqueting hall, seating 200 or more, offers a suitable place for the social life of students and alumni.

Pumping Station—A well equipped pumping station, with ample settling basins, erected in 1897, is located near the river. An abundant supply of pure water is thereby guaranteed for the campus and all the buildings on it.

Heating and Lighting Plant—The building for the heating and lighting plant, with the installation of service in all the buildings of the campus, was completed in 1906. The heat is steam, and is ample for the needs of the campus. In the same plant is located an electrical dynamo, which furnishes electricity for all the buildings and the campus.

Dormitories—Six large buildings provide homes and dormitories for students. Two are occupied by men and four by women. In the latter dining room facilities are ample for the accommodation of the young men of the dormitories. Two new dormitories, one for men and one for women, are being erected, and will be completed during the summer.

Cottages—The institution owns nine cottages, which are occupied by the President and members of the Faculty.

THE MUSEUM.

A small collection has been made for a Museum of Natural History. The available space in the halls of Mackay and in the Biology rooms is occupied by cases containing the specimens, a majority of which have been classified. The collection includes a human skeleton, also one of the cat and the frog, skulls of the sheep, horse and fish, three type specimens of each class of invertebrates, together with a large collection of eggs of the fish and sea-urchin. The insect cabinet contains a thousand local insects, among which are seven hundred Lepidoptera and 200 Coleoptera, with several rare specimens from New York and California. Botany is represented by fifty native wood sections, and by a herbarium of the plants of New York, the gift of S. J. Teran, with the early summer flora of Missouri.

The educational series of rocks, furnished by the U. S. Geological Survey, includes one hundred and fifty rocks, minerals and fossils from all parts of the country, carefully arranged and labeled. With these appear some local Geodes and Lamellibranches. A few very valuable specimens of gold and silver ores, some beautiful abilone shells, corals and Echinoderms from the Pacific have been recently donated by Mrs. George Lawrence in memory of her son, Park.

Park graduates on the mission fields have generously favored their Alma Mater. A fine collection of African weapons, musical instruments, household utensils, wearing apparel, rosaries and idols is a valuable one. Our alumni missionaries in China, India, Laos, Siam and Korea have placed in the museum many of the objects of interest of their respective countries, such as coins, articles of wearing apparel, models of buildings, implements of agriculture, and of devices for the preparation of their food. Residents in Colorado, Alaska,

Southern Missouri and Arizona have supplied mineral specimens and other articles characteristic of these widely scattered territories.

The late Rev. Mead Holmes, Rockford, Ill., gave the college the large and valuable collection, which was the result of years of arduous work of his daughter, the late Miss Mary E. Holmes, Ph. D. The collection is in five departments, botanical, geological, conchological, ornithological and entomological. Many of the specimens have been classified and arranged in cabinets and cases in accordance with the classification given. The birds and reptiles are mounted, and most of them arranged in cases specially decorated for them.

DAILY CHAPEL.

The Chapel Assembly held each school day in McCormick Chapel at one o'clock is a required service. The Chapel period is thirty minutes. Avail is taken of the opportunity to drill in chorus singing. College and other secular songs are often employed, as well as church hymns and the gospel songs. A passage of scripture of greater or less length is read or recited in concert or response each day. It is understood that each student shall be supplied with hymn book and Bible. The "talks" are topical rather than expository of the scriptures, though the passage usually has some near or remote connection with the line of remark. The thought is kept constantly in mind that the service, while being classical, is strictly a religious and spiritual one. The chaplain conducts every service, speaking at least twice each week. At the three remaining services some other member of the Faculty or visiting friend makes a ten-minute address. Too much cannot be said of the real, practical value of this service as a power for character building. Time is taken in the middle of the day; while the stress and strain of the day's service is greatest, to pause in

body and mind, and consider those higher interests which make the others worth the effort. This Assembly furnishes a daily opportunity for the college life to flow to a common center. The most of the business meetings of the almost numberless student organizations are held during a few unoccupied moments in the college programme immediately following this general gathering. The various events and features of the general college programme are much discussed at the assembly. The aim is to induce by every means the entire body to feel a genuine community of interest in the college life, and to keep the standards of life toned up by an appeal to moral and religious principles.

LIBRARY AND READING ROOM.

While it was housed in somewhat cramped quarters in the main college building, Park College library had a quiet, gradual growth. The only large gift for purchasing books was that of Mr. Stanley R. McCormick, who generously placed at the disposal of the college \$4,200.00 for this purpose. The judicious expenditures of this sum, under the direction of the heads of various departments, and the addition of a large number of volumes from many other sources, have given to the institution a library which, for the practical use of college students, has no superior in the State.

The present contents of the library are something in excess of 16,000 volumes. There are nearly a thousand volumes of bound magazines. On file in the reading room will be found between thirty and forty of the leading monthly magazines, over twenty weeklies and a number of dailies. On the reference shelves are bound magazines, general reference works, and material selected from the historical, scientific, literary and philosophical departments. Leading religious papers, missionary literature and Sunday School lesson helps are also on file.

The library is classified by the Dewey decimal system, with Dictionary Card index, and receives the constant attention of the librarian and assistants. Subject to ordinary regulations, its advantages are enjoyed not only by the faculty and students, but also by the community at large, without fee.

THE CHEMICAL LABORATORY.

The Chemical Laboratory occupies rooms in the lower floor of Mackay, and is equipped with the usual facilities for all ordinary chemical work. The students' desks, thirty-two in number, are constructed with lockers and drawers for individual use. They are furnished with gas, water and electricity. The smoke stacks, formerly used for the furnaces, are equipped for hoods, thereby insuring perfect ventilation, and the immediate removal of all noxious gases. A condenser connected with the steam mains furnishes distilled water in any quantity needed. The floor of the lecture room is elevated in tiers, affording an unobstructed view of the demonstrator's desk. A work room adjoining is equipped with the necessary conveniences for the demand. A library, ample in its quality and quantity, is accessible to each student.

PHYSICAL LABORATORY.

The laboratory has adequate equipment for demonstrative purposes for the general work in the subjects as pursued by students in physical measurements, electrical measurements, and for the simple experiments in sound, heat and light. Desks are equipped for individual student work. The laboratory is supplied with gas, water and electricity. A two hundred and twenty-volt, direct current, is available, with storage battery for smaller current. The department library contains one hundred or more well selected volumes, to which additions are made from time to time as there is demand.

ASTRONOMICAL OBSERVATORY.

The Charles Smith Scott Observatory building is located on an elevation above Mackay building. It is equipped with an eight-inch Warner and Swasey equatorial telescope, having ten eye pieces, magnifying four hundred eight diameters, a filar micrometer, with electrically lighted wires, and a helioscope. It is mounted equatorially and provided with a driving clock. The sidereal transit room is equipped with a three-inch sidereal Warner and Swasey transit, properly mounted; a Riefle, break-circuit, astronomical clock, and a Warner and Swasey chronograph. The lecture room is ample for the needs of small class computation work. The library is sufficient for the needs of the department, and is being increased annually. The lecture room in Mackay is provided with a Henry Fitz four and one-half inch portable equatorial telescope. It is available for constant mechanical study during the day and for student use at night for astronomical observation.

BIOLOGICAL LABORATORY.

The main laboratory is in the southeast basement of Mackay. It contains thirty-two desks, fitted with lockers and the usual accessories. Each desk is supplied with a dissecting and compound microscope and a dissecting case. A reference library of four hundred volumes and a case for filing current magazines and bulletins occupies the room. Here are stored aquaria, nets, setting boards and similar apparatus.

A Physiological laboratory for elementary work is fitted with water sink, plain tables, chairs, a case containing a skeleton and a number of models and maps. Each table is supplied with lenses, knives and dissecting dishes.

An advanced laboratory, seating sixteen students, occupies the first floor, southeast corner. Besides the desks, it contains

cases for the storage of glassware and instruments. Among these are incubators, sterilizers, paraffine ovens and microtomes. One hundred charts, two thousand slides, dissections and models are stored here. Five hundred standard reference books on science occupy the cases and are available at all times. A mezzanine, extending over one-third of this room, has been added recently. This materially increases the floor space available for storage purposes.

The science lecture room adjoins the advance laboratory. It contains thirty-eight sittings, arranged in amphitheater style, with demonstrating tables in the center. It is well lighted, and contains a geological reference library of one hundred volumes.

LECTURES AND ADDRESSES.

We are specially favored during the year in visits from leading men, both clergymen and laymen, who bring to the students messages that are very much appreciated. Our proximity to Kansas City makes possible a few hours' visit from our friends who are passing across the continent.

Since the last issue of the catalogue the following have been with us at our Chapel hour or given us general or popular addresses:

Rev. Trigg A. M. Thomas, Kansas City, Mo.

Pastor Eastminster Presbyt. Church.

Rev. Samuel Garvin, Kansas City, Kans.

Pastor First Presbyterian Church.

H. F. Laflamme, Toronto, Canada.

Traveling Sec'y, Student Volunteer Movement.

Rev. J. Ashley Fitch, Weihsien, China.

Missionary under Presby. Board.

Rev. Henry Bullard, D. D., St. Joseph, Mo.

Pastor Westminster Presby. Church.

Rev. Robt. Irwin, Friday Harbor, Wash.

Pastor Presby. Church.

- Dr. John L. Myers, Ketchikan, Alaska.
Physican.
- Henry M. Beardsley, Kansas City, Mo.
Mayor Kansas City.
- Henry L. McCune, Kansas City, Mo.
Judge of the Circuit Court.
- Dr. A. M. Sharrocks, Syen Chyun, Korea.
Physician under Presby. Board.
- Robert E. Speer, New York City.
Sec'y Board of Foreign Missions.
- Rev. W. T. Rodgers, D. D., St. Louis, Mo.
Pastor Lucas Ave. Presby. Church.
- Rev. W. C. Hicks, D. D., Springfield, Mo.
Presbyterial Missionary.
- Rev. W. M. Claggett, Sedalia, Mo.
Pastor Broadway Presbyt. Church.
- Rev. A. F. McGarrah, Pittsburg, Pa.
Representing Board of Home Missions.
- Rev. Robt. F. Fitch, Mingpo, China.
Missionary under Presbyt. Board.
- Rev. James H. Salsbury, Plattsmouth, Nebr.
Pastor First Presbyterian Church.
- Rev. R. H. Sidebotham, Tusan, Korea.
Missionary under Presbyt. Board.
- Rev. Henry Nelson Bullard, Ph. D., Kansas City.
Pastor Melier Place Presbyt. Church.
- C. S. Bishop, Kansas City, Mo.
Secretary Y. M. C. A.
- Rev. Geo. Renolds, D. D., Kansas City, Mo.
Pastor Second Presbyt. Church.
- Rev. Frank S. Arnold, D. D., Kansas City, Mo.
Pastor First Presbyt. Church.
- Rev. Dr. R. C. Allen, Grove City, Pa.
Lecturer.

Rev. D. Clay Lilly.

Sec'y Men's Movement Presbyterian Church, U. S.

Rev. Geo. McNab, Shelton, Nebr.

Pastor Presbyt. Church.

Wm. B. Jacobs, Chicago, Ill.

Sec'y Ill. S. S. Association.

Rev. John Bamford, Kansas City, Kans.

Pastor Western Highland Church.

Llewellyn Jones, Esq., Independence, Mo.

Rev. Roy Brown, Albay, Philippines.

Missionary under Presbyt. Board.

D. L. Piersons, New York City.

Editor of Missionary Review.

Wm. Jennings Bryan, Lincoln, Neb.

Rev. J. S. Cheavens, Torean, Mex.

Missionary under Baptist Board.

Mrs. Strothers, St. Louis, Mo.

Under appointment of Presbyt. Foreign Board for China.

STUDENT ORGANIZATION.

The active religious life of the student body is promoted by the different organizations among them.

The Young Women's Christian Association meetings are well attended and are very helpful. The volunteer Band and Mission Study Class hold regular meetings. The latter organization is under the helpful care of Dr. A. L. Wolfe, who meets with them for conference and study. Each college class sustains a weekly prayer meeting.

The Academy students are organized into two groups for weekly prayer services, meeting simultaneously.

LITERARY SOCIETIES.

In addition to the work of the departments of English and Literature, Literary Societies have been organized. Students are urged to take membership in these organizations and secure the benefits of the voluntary literary work afforded by them. The young men and women meet separately. They have their own halls and furniture. During the year the halls have been redecorated and partially refurnished. They are artistic and of necessity helpful to a fuller, stronger development of the cultural side of the student life. At their weekly meetings the usual literary programmes are rendered. At stated intervals during the year joint open sessions are given. An inter-society debate is made a valuable feature of each term's work. The regular meetings are limited to members of the societies, and a strict adherence to parliamentary usages is insisted upon.

THE ORATORICAL ASSOCIATION.

The Oratorical Association was organized in 1888 as a part of the Inter-Collegiate Association of the State. Local contests are held each fall, at which an orator is chosen to represent the college at inter-collegiate contests. First place was won by Park's orator in 1897 in the inter-collegiate, thereby securing a place in the Inter-State, where first place was accorded our representative. First place was again won in the inter-collegiate in 1903, in 1904, in 1906 and in 1908, and second place in 1905 and in 1907.

PUBLICATIONS.

THE *STYLUS*, published under the direction of the Senior class of the College, is distinctly the student organ. Now in

its twelfth year, it is growing in circulation and influence as a factor for good. The literary productions are of a high order, and pride is taken to make it helpful to all who read it.

MASTER'S DEGREES.

The Master's degree will be given upon satisfactory examinations in post-graduate studies not earlier than two years after graduation when non-resident work is done, or after one year of resident work. Courses will be outlined in any department upon request.

FEES.

For Master's Degree.....	\$10.00
Diploma (optional)	2.50

Payable \$5 upon enrollment, the balance one year thereafter. Fee for diploma payable when ordered.

ESTIMATED ANNUAL EXPENSES.

Board, \$3 to \$4 per week (43 weeks).....	\$129	to	\$172
Tuition per term, \$10.....	30		30
Laboratory fees	3		3

The Board of Trustees forbids the admission of any student to class room privileges until all dues have been satisfied.

Personal expenses are what the individual students make them and cannot be definitely stated.

GOVERNMENT.

1. The general requirements and restrictions of the Faculty apply to all students of the institution.

2. Tobacco, liquor, cards or games of chance and profane language are forbidden. This requirement is in force

as long as a student retains connection with the institution; absence from Parkville does not release from it.

3. Students are expected to attend at least one church service and one Sabbath School session each Sabbath. The choice of church is left to the individual student.

4. Students may find boarding places in the village with families, where the following conditions are met:

(a)—Daily family worship is maintained.

(b)—The lady of the house will become responsible for the observance of the study hours, beginning with seven o'clock each evening.

(c)—She will not allow her lady boarders to accept the company of gentlemen without the approval of the Dean of the women.

5. Students, after obtaining the approval of the Faculty as to location and general conditions, may form boarding clubs. This may be permitted:

(a)—To young ladies, provided they reside with a matron approved by the Faculty, who will be responsible for carrying out the provisions of Section 4, above.

(b)—To young men who engage to fulfill the conditions of maintaining family worship and observing study hours as above. Young men thus in clubs will not entertain lady friends unless the latter are accompanied by a chaperon approved by the Faculty.

6. No student is expected to leave Parkville without permission.

PRIZES.

KATHERINE MACKAY FORD PRIZE—This prize is a gold eagle, contributed as a memorial to the late Mrs. George D. Ford, Kansas City, Mo., and is awarded to the author of the best oration delivered at Commencement. Awarded 1907:

RALPH WAGGONER,
The Manifestation of Patriotism.

PARK-LAWRENCE PRIZE—This prize is ten dollars, contributed by Mrs. George A. Lawrence of Galesburg, Ill. It is awarded for the best essay presented at Commencement. Awarded 1907:

ANNA M. ORR,
Force of Ideas in History.

LAWRENCE ORATORICAL PRIZES—These are \$20, \$10 and \$5, contributed by Mr. and Mrs. George A. Lawrence of Galesburg, Ill., and are awarded to the successful competitors in a Junior-Senior Oratorical contest, which regularly occurs during Commencement week. Awarded 1907:

1ST, THOMAS B. THOMPSON, '07,
"The Child That Toils."

2ND, LAPSLEY E. SIMRALL, '07,
"Daniel Webster, The Orator."

3RD, WALTER G. GRESHAM, '08,
"The Present Crisis."

BROWNING, KING & Co. PRIZE—This prize is a gold eagle for the best examination in Sunday School work. The examination is open to members of the Junior class. Awarded 1907:

ELIZABETH B. ELLIOTT, '08.

LAWRENCE ESSAY PRIZES—These are \$15 and \$10, contributed by Mr. and Mrs. Lawrence, and are awarded for the best and second best essays produced by the members of the Freshman and Sophomore classes. Awarded 1907:

1ST, CHARLES B. MURPHY, '10,
"Gladstone."

2ND, JESSIE B. KIRKPATRICK, '10,
"Wendell Phillips, The Patriot."

CHARLES S. SCOTT ASTRONOMICAL PRIZES—These prizes are \$15 and \$10, income of endowment by Mr. Anthony Dey of New York City. Awarded for best examination in Astronomy and solution of special problems. Awarded 1907:

1ST, JOSEPH KASPAR, '08,
2ND, C. CLAYTON WYLIE, '08.

CHARLES S. SCOTT BIBLICAL PRIZES—These prizes, \$15 and \$10, are the income of endowment by Mr. Anthony Dey of New York City. Awarded for the repetition of the Proverbs and best examination in Old and New Testament History. Awarded 1907:

OLIVE M. GLASGOW, '10.
JOHN C. RANKIN, '09.

PARK BANK PRIZE—This prize is contributed by the Park Bank, and is offered to Sophomores for the best grade in an examination in General History. Awarded 1907:

RUTH M. THOMPSON, '09.

BENHAM SOCIOLOGICAL PRIZE—This prize is \$5, and is given by Dr. and Mrs. C. E. Benham, Parkville, for the best work in Sociology. Awarded 1907:

ANNA M. ORR, '07.

THE SOPHOMORE GREEK ESSAY PRIZE—Five dollars cash, offered to members of the Greek division of the Sophomore

class for the best essay submitted upon an assigned subject.
Awarded 1907:

JOHN PANAIOTOFF, '08.

FRESHMAN-SOPHOMORE DECLAMATORY PRIZES — These prizes are of Books, given by Mrs. H. C. Verril, Elmira, N. Y., memorial to Prof. Henry S. Verril, to the ones delivering the best declamations in a contest between the members of the classes. Awarded 1907:

1ST, O. CLYDE RULEY, '09,
"The Prisoner's Soliloquy."

2ND, ETHEL S. CROWLEY, '10,
"The Prodigal Son."

History.

J. LUCIAN MORRIS, B. S.,
Science.

The address before the graduating class of the Academy was delivered, 1907, by Prof. Roy V. Magers, '96, Greek Department, Park College.

GENERAL INFORMATION.

The Academy is under the same general management as the College. It has for its object the thorough preparation of its students for pursuing the College course, as outlined on the preceding pages, consequently it differs materially from the High Schools in the course offered. It has a separate corps of instructors, who are in constant touch with the heads of the corresponding departments in College. The instruction is given in the same building with the college classes, thereby giving the students advantage of contact with the college students and professors. The library privileges are extended to them on the same basis as to the college students. They have their own literary societies, which hold weekly meetings.

TUITION.

First Years	\$10.00 per semester,	\$20.00
Second Years	10.00 per semester,	20.00
Third Years	12.00 per semester,	24.00
Fourth Years	12.00 per semester,	24.00

COURSE OF INSTRUCTION.

The work of the Academy has been outlined with great care, and covers a course of four years. All subjects not deemed necessary for a special preparation for the college course have been eliminated.

ADMISSION.

To enter the First year, students must have completed all grammar grade work as is usually required in our best graded schools. A certificate of admission to any high school maintaining a three or four years' course will be accepted. Stu-

dents holding teachers' certificates will be admitted without examination. Applicants for admission to other years must present certificate or pass examination on all subjects below the year for which they apply. The acceptance of all credits is contingent upon the quality of work done by the students after matriculation.

Written examinations are held at the close of each semester, the results of which are given to the student in written form. A grade of 75 per cent is required for passing the first and second years, of 60 per cent for work of the third and fourth years, and an average of 70 per cent on the third and fourth years for graduation.

TEXT-BOOKS FOR ACADEMY COURSE.

MATHEMATICS—Milne: Academic Algebra; Wentworth: Plane and Solid Geometry; Wentworth: New School Algebra.

ENGLISH—Lockwood and Emerson: Composition and Rhetoric; Watkins: American Literature Primer; Selected Classics.

HISTORY—Myers: Ancient History (revised).

LATIN—Collar and Daniel: First Year Latin; Arrow-smith and Knapp: Viri Romæ; Allen and Greenough: Cæsar's Gallic War; Riggs: In Latinum; Greenough and Daniel: Sal-

lust ; Allen and Greenough : Cicero's Orations ; Knapp : Vergil ; Harkness : Complete Latin Grammar ; D'Ooge : Latin Prose.

GREEK—White : First Greek Book ; Moss : Greek Reader ; Goodwin and White : Xenophon's Anabasis ; Harper and Castle : Greek Prose ; Parsons : Cebes' Tablet ; Seymour : Homer's Iliad.

SCIENCE—Wentworth and Hill : Text-book of Physics ; Martin : Human Body ; Huxley : Crawfish ; Eddy : Experimental Physiology.

BIBLICAL—The Bible ; Barrows : Sacred Geography and Antiquities ; Hurlbert : Manual of Biblical Geography ; Blaikie : Manual of Biblical History.

DEPARTMENTS OF INSTRUCTION.

ENGLISH.

LIDA I. WHITE.

Literature. I. 1, 2. 2 hours.

American Literature Primer, with representative works of prominent American authors.

Literature. II. 1, 2. 1 hour.

Lady of the Lake, Webster's Bunker Hill Oration, Ivanhoe.

Literature. III. 1, 2. 1 hour.

Merchant of Venice, Burke's Speech on Conciliation with America, Silas Marner.

Literature. IV. 1, 2. 1 hour.

Julius Cæsar, a Study of Poetic Forms based on Hale's Longer English Poems, The House of Seven Gables.

Composition and Rhetoric. I. II. 1, 2. 2 and 1 hours.

Rhetoric and theme writing with class criticism.

Composition and Rhetoric. III. IV. 1, 2. 1 hour.

Short and long themes, class criticism and conference with individual students. Public speaking, class instruction based on Fulton and Trueblood's Practical Elocution.

Composition and Rhetoric. I. II. 1, 2. 1 hour.

Declamation, approved selections with class criticism, three appearances.

Composition and Rhetoric. III. IV. 1, 2. 1 hour.

Declamations, approved selections, personal drill, three appearances.

GREEK.

DUDLEY D. GRIFFITH.

Elementary Greek. III. 1 and 2. 5 hours.

The purpose of this course is to establish as broad a knowledge as is possible of the study of the forms, syntax, vocabulary and mode of expression of the Greek language, thus forming an accurate and scientific foundation for future study.

White's First Greek Book is completed and selections from the Anabasis are read.

Anabasis. IV. 1. 4 hours.

This course is a continuation of the study of Xenophon's Anabasis. Selections, consisting of at least two books, are read very carefully for training in accurate translation, and as a basis for the study of the forms and the syntax of the language. The history of the time is studied in collateral reading and lectures. The learning of the memory passage for the Fourth Year Greek Declamatory Contest is a part of this semester's work.

Homer's Iliad. IV. 2. 5 hours.

This course is a careful study of Epic forms in preparation for a more rapid reading of Homer in the college. Homeric life and Greek Mythology are studied as we have opportunity.

Greek Prose Composition. IV. 1. 1 hour.

The purpose of this course is to review Greek forms, to systematize the student's knowledge of syntax, and to teach an accurate vocabulary in writing idiomatic Greek.

LATIN.

THERESA M. KALB. E. O. KOCH.

The following courses aim to give a fair knowledge of Latin as a language, to serve as a basis for the further study

of Latin as literature in College. All that is indispensable of vocabulary, forms, construction and sentence structure is thoroughly acquired, and as much more as time permits. Incidentally the student learns the essential features of Roman life and custom. Review of inflections and syntax and more or less of prose composition characterize the entire course of four years.

Beginning Latin. I. 1, 2. 5 hours.

The elements are mastered, and in addition as many easy Latin fables and stories are read as time permits.

Cæsar's Commentaries. II. 1, 2. 5 hours.

Five books are read. But for a portion of this an equivalent in some other reading, as *Viri Romæ*, may be substituted sufficient to serve as a transition to Cæsar. The grammar is reviewed and prose exercises continued.

Sallust's Catiline. III. 1. 5 hours.

Cicero's Catiline. III. 1, 2. 5 hours.

The four Catilinarian orations are carefully studied. Prose composition forms a large share of the work throughout all the reading of Cicero. Grammar is reviewed and a special effort is made to acquire an accurate knowledge of a good working vocabulary.

Cicero's Orations. IV. 1. 5 hours.

Virgil's Aeneid. IV. 2. 5 hours.

About twelve weeks are devoted to Cicero's Manilian Law and Archias, or equivalent. The rest of the year is given to the Aeneid, Books I-IV. In the latter author much is read intensively, while rapid reading is not neglected. Grammar review is continued and scansion thoroughly mastered. During this year more attention is paid to the literary side of the works read.

MUSIC.

IDA E. STEM.

This course is designed to give the student a practical reading knowledge of music, correct use of the voice and the principles of enunciation.

Music. I. 1. 2. 1 hour.

Rudiments of music—Major keys—scales, both vocal and written, ear training and interval drill, introduction of chromatics and two part chorus work.

Music. II. 1, 2. 1 hour.

Chromatic scales, vocal and written, interval drill introduction of bass staff, three and four part chorus work, introduction of the Minor Mode.

Music. III. 1, 2. 1 hour.

Minor keys, modulation, vocal and instrumental forms of music, chorus drill.

Music. IV. 1, 2. 1 hour.

Biography and advanced chorus work.

MATHEMATICS.

JOHN W. HORNBEAK.

Algebra. I. and II. 1, 2. 5 hours.

It is the object not only to secure facility in the algebraic operations, but also to develop a thorough appreciation of the fundamental principles underlying the science. All important rules are rigorously proved, and it is the constant aim to develop the power of thinking in general terms.

Geometry. IV. 1, 2. 5 hours.

Wentworth's Revised Geometry is used as a text-book. In Solid Geometry demonstrations are made from goniostat

models and a pendant globe, as well as from blackboard figures. Many original exercises are given.

Attention is called repeatedly to the various methods of reasoning employed in the demonstrations. Thus it is the aim to make this study of mathematics worth while, both for its own sake and for the sake of mental power and method.

SCIENCE.

J. LUCIEN MORRIS.

Science. III. 1. 5 hours.

The first semester is spent in a combined course of Zoology and Human Anatomy and Physiology. The elementary zoological work uses the crayfish and frog as types in the laboratory work. The use of the college laboratories has proven very helpful in individual work in Experimental Physiology. The latter half of this semester is devoted to a morphological and physiological study of the human body, assisted materially by the constant use of a manikin, skeleton, charts, casts and a fine collection of microscopic slides.

Science. III. 2. 5 hours.

This semester is being very profitably occupied with a course in elementary Physics, directed especially to the laws and principles of Mechanics. The college laboratories and apparatus are available for successful work.

BIBLE.

PRESIDENT MCAFEE.

The purpose of this course is to show what the Bible teaches of God's revelation of Himself to man, in the individual life, in the family and in the nation. Effort is constantly made to lead the student to see that Biblical history is as truly

history as are the records of Greece, Rome and England. Consequently the individual lives that are portrayed, the geography and the significance of the customs of the day are of vital interest. Reference is made to charts, maps, pictures and books in the Library, but the Bible is the text-book. Emphasis is placed on it as God's word of revelation to man.

Bible. III. 1, 2. 1 hour.

The origin of our English text. Genesis to the exodus from Egypt.

Bible. IV. 1, 2. 1 hour.

The exodus from Egypt to the close of the Old Testament. A few only of the Poetical and Prophetic books are studied.

HISTORY.

BLANCHE HOWARD.

History. II. 1, 2. 5 hours.

The work in this department is designed not only to give students a general knowledge of ancient civilization, in its development and decay, but also to stimulate their interest, lead them to an appreciation of the wonders of Greece and Rome, and inspire them with a desire to know more than the brief survey, which only a year can give. The course includes the history of the Oriental Nations; Egypt, Babylonia, Assyria, Phoenicia and a more exhaustive study of Greece and Rome. Note-book and theme work is required; also extensive use of a well equipped library.

PRIZES.

LAWRENCE HYGIENE PRIZES—These prizes are awarded to the Physiology class for first and second best work on the course. First prize, \$4; second prize, \$2. Awarded:

1ST, PRESCOTT THOMPSON, '08.

2ND, MABEL E. WALKER, '08.

THIRD AND FOURTH YEAR DECLAMATORY PRIZES—These prizes are Books, given by Rev. George S. McCune to the ones delivering the best declamation in a contest between the members of these classes. Awarded 1907:

1ST, EVELYN M. BAILEY, '08,
"Tobe's Monument."

2ND, CAROLYN L. ASHBY, '07,
"The Child Wife."

ARTHUR S. COOLEY PRIZES IN GREEK—Offered by Dr. Arthur S. Cooley, of the American School of Archaeological Studies, Athens, Greece; \$3, \$2 and \$1 for highest proficiency in Greek Declamation. Awarded 1907:

1ST, DOLLIE MAE TOWNE, '07.

2ND, HERMAN W. CHRISTENSON, '07.

3RD, WALTER C. LOWDERMILK, '07.

PRIZES IN GREEK—Six and four dollars for the highest grade received in beginning Greek of the third year. Awarded 1907:

1ST, CLARA E. KLAMM, '08.

2ND, ISADOR SAMUELS, '08.

MUSIC DEPARTMENT.

AUSTIN D. WOLFE, A. B.,
Director of the Student Choir.
Chapel Chorister.

MRS. S. L. McAFEE, A. M.,
Instrumental Music.

IDA E. STEM,
Vocal Music.

EMILIE HANSEN, B. M.,
Instrumental Music.

O. CLAUDE RADER.
Violin, Director of the Band and the Orchestra.

INSTRUMENTAL MUSIC.

EMILIE HANSEN.

Piano.

Harmony.

Pipe Organ.

Composition.

This department aims for an appreciation of the highest in music; to cultivate the student's ear for the best literature and train his ear and fingers to carry out his ideal. A thoroughly classical course is maintained, yet each student is educated individually, and such studies assigned as best fit his special needs. Student recitals are given during the year as an important part of musical training. Instruction is offered, class or individual, in musical composition and harmony. A knowledge of harmony is indispensable to the musician. It is to music what grammar is to literature. Tuition below is all for a term of twelve weeks; three terms make one school year. The tuition is payable in advance.

TUITION.

FOR A TERM OF TWELVE WEEKS.

Piano or Pipe Organ.

One lesson each week of thirty minutes..... \$8.00

Two lessons per week, each of thirty minutes..... 15.00

Harmony or Composition.

Private: One lesson each week of thirty minutes.... 8.00

Two lessons per week each of thirty minutes 15.00

Class: One lesson each week of forty-five minutes 4.00

Two lessons per week each of forty-five minutes 7.50

The work of this department has been enlarged and improved during the year. Its scope is both individual and general. Its aim is to enable students to gain a mastery of voice and instruments as a part of a liberal education. Its studios and practice rooms are in Mackay Building and the several homes of the campus. Twelve pianos and five organs are in the use of the department.

MRS. S. L. McAFEE.

It is impossible to prescribe a definite course of study for students of varied ages and capabilities, but particular attention is given to thoroughness in principles. The most approved methods of acquiring technic are used. For those who desire skill as organists, Harmony is introduced very early in the course.

Term of 20 lessons, \$10.00.

VOICE CULTURE.

IDA E. STEM.

To make the voice perfect in intonation, strong and flexible throughout its range, to teach the student the art of phrasing and expression, and to understand and appreciate the

works of the masters, is the aim of this course. To accomplish this, the general principles of voice culture must be followed by each student. Breath control, correct tone production and enunciation are the essentials aimed at. Student recitals occur on the last Monday of each month, and each student is expected to appear when suitably prepared. Two Faculty concerts are given during the year, in which the musical members of the Faculty and the musical organizations of the College participate. The Treble Clef Club receives instruction in this department once a week during the year.

TUITION.

Term of twelve lessons, one-half hour each week.	\$8.00
Term of twelve lessons, two half hours each week.	15.00

VIOLIN.

O. CLAUD RADER.

The same methods are used here as in Brussels (Belgium) Conservatory.

After the complete method of Alards, then scales, Schradieck, Mazas and Don't Studies are used.

Anyone having received thorough training in the above, or their equivalents, may take up the Studies of the following masters: Kreutzer, Fiorille, Rode, the high classical of De Beriot, Rovellii, Ganinies, Vieuxtemps, the Bach Sonatas and Paganini. A few of the solo studies with these are: the concertos of De Beriot, Vieuxtemps, Viotti, Rode, Beethoven, Mendelssohn, Brahms, Ernst and Paganini.

The aim is to develop the talent of each pupil to the highest degree possible.

Tuition.

Lessons, each75
One Term, 20 lessons.	\$13.50

MUSICAL ORGANIZATIONS.

There are five distinctively College Musical Organizations. The choir, under the direction of Prof. A. D. Wolfe, is composed of thirty voices, distributed proportionately among the parts. Two regular practices are held each week, with special rehearsals as demanded. Student membership is limited to the College students. Both sacred and secular music constitutes its repertoire. One or more anthems are sung each Sabbath during the services of the Parkville Presbyterian Church, with which the College is closely associated.

The Men's Glee Club is under the direction of Prof. R. V. Magers. It is composed of sixteen members, limited to College students, with a cornetist and reader. Two weekly practices are held. A score or more of non-resident concerts are given annually. The club is in demand locally for programmes and entertainments.

The Treble Clef Club, under direction of Miss Stem, is composed of twenty-six members, chosen equally from the membership of the Calliopean Literary Society and the Lucerne Literary Club. The organization was effected in the fall of 1906, and is rapidly finding place in the esteem of all the lovers of music who hear them.

The Park-Lawrence Band is composed of fifteen pieces. Members are chosen from both College and Academy classes. Two weekly practices are held. It is under the direction of Mr. O. C. Rader, and is ready for call for all occasions, especially where band music alone can equal the demand.

The Orchestra is composed of twelve pieces. Its membership is composed of both College and Academy students. Mr. O. C. Rader is director. Two weekly practices are held. The orchestra appears on many programmes throughout the year, and, in part, leads the music of the Sabbath School each Sabbath day.

ROLL OF STUDENTS.

GRADUATES—8.

Candidates for M. A. Degree.

Enrolled 1904-1905.

DUNCAN, JOHN, Park '02.

Major, Philosophy; Minor, Greek.
